To whom it may concern,

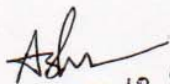

It is a great pleasure for me to recommend Md Kawsher Mahbub for admission to your university. Being a student at the Bangladesh University of Business and Technology (BUBT), he has been in touch with me since his undergraduate years. He is one of the most extraordinary students I have encountered in my teaching life.

In his undergraduate years, I taught him Artificial Intelligence course, and he was one of the top (in the top 5%) students, indicating that he is highly eager to learn. He was deeply invested in his work, applying himself with tenacity and determination, and frequently going above and beyond the usual class assignments. He is an outstanding student, a dedicated worker, and possesses above-average reasoning skills. He got several times SGPA 4.00 out of 4.00 and got a tuitions fee waiver from his undergraduate institute for his excellent GPA.

I'm more intrigued by his organizational and communication abilities than by his results. These, in my opinion, are the deciding elements in choosing a candidate for graduate studies. I found him to be a delightful and adaptable team player with a good awareness of the roles and responsibilities that a person must possess for a team to function effectively. Furthermore, as evidenced by his efforts to reach out to his team members when they needed him, he was a very social person who cared about their difficulties.

This young man has outstanding communication skills. I believe he will be able to plan and carry out research projects independently. I applaud him for his learning efforts; he is a quick and enthusiastic learner. I strongly believe that he will continue to demonstrate his academic potential while pursuing his study at your university if given the opportunity. I wish him all the best in his future endeavors.

Sincerely yours,

  
01.12.2021

Md. Ashraful Islam

Lecturer, Dept of CSE

Bangladesh University of Business and Technology (BUBT)
